About Me

I am a 2nd year undergraduate student at a IIIT university with a passion for learning and exploring the world of technology. I have a strong interest in computer science and have been actively exploring the field through a variety of courses and independent research projects. I am eager to gain experience in the technology industry and am excited to contribute to any team I am a part of. My attention to detail, strong problem-solving skills, and eagerness to learn make me the ideal candidate for any position I apply for. I am looking forward to gaining more experience in the field and am excited to see what the future holds.

Experience

Now I have not much experience of working but I participated in some Hackathons and trying to get the experience.

TATA Imagination Challenge

Recently I have participated in the contest and qualified for the semi final of the Imagination challenge.

Smart Odisha Hackathon

Recently I have participated in the Grand Finale of the Hackathon conducted by Government Of Odisha
